

Abu Afza

Toronto, ON, CA M1L 3T5

afza22bd@gmail.com

+1 647 780 3079

- More than five years of experience in Teaching and ten years of experience in Software Development
- Expert in the design and implementation of large-scale applications and solution integration
- Strong analytical and problem-solving skills demonstrated in performance diagnosis and system integration projects
- Rich experience in Programming development
- Team members' mentorship and end-user training expertise.
- Expert in Cloud (Azure, GCP, AWS)
- Strong knowledge in programming, such as ASP.NET, C#, PHP, jQuery, React, Vuejs, Node.js, Express, HTML, CSS, Javascript, and BootStrap.
- Specialist in Oracle (Apex, SQL developer, Toad), MySQL, TSQL, NoSQL (MongoDB)
- Expert in Windows Server 2022 (DNS, AD, OU, GPO, DHCP, IIS, WINS, NetBIOS, DC, NAT, VPN, SSH, SNMP, SMTP, Windows Domain, CIFS/SMB, SQL database, logging Managing Security, Managing Printing, Managing Terminal Services, VM Ware Workstation, Hyper-V).

Work Experience

Instructor, IT Professional Program (IT and Cybersecurity)

triOS College Business Technology Healthcare Inc.-Mississauga, ON

October 2024 to Present

Ø Taking courses: PC Support (CompTIA A+), Windows Administration (Microsoft Endpoint), Windows Server & Active Directory Administration, IT Service & Project Management (CompTIA Project+), Network Administration (CompTIA Network+), Linux Administration (CompTIA Linux+), Security Fundamentals (CompTIA Security+), Managing Infrastructure Services (Email, SQL, Web) Server, Cloud & Automation Technologies (CompTIA Server+/Cloud+), Advanced Network Technologies (Cisco CCNA, CWNA), Cybersecurity (CompTIA CySA+/Pentest+/CASP+).

Ø Complete all teaching administrative tasks on student CRM (Brightspace and XCAS), such as classroom attendance, evaluation results, grade submissions and other student records within deadlines.

Ø Develop, design, and update the course curriculum to ensure optimum student learning, encourage classroom discussions and constantly build student engagement.

Ø Plan classroom instructions ahead of time to ensure best student learning.

Ø Be a mentor and coach to the students, guide them on how to be best prepared and navigate them through the course.

Cyber Security Career Mentor

EC-Council-Toronto

October 2023 to Present

Instructor, Enterprise Network Engineering program

Citi College of Canadian Careers-Toronto, ON

July 2022 to Present

• Conducting classes for CompTIA A+, Microsoft MD 100 and 101, Microsoft Azure AZ 104, CCNA, CCNP (ENCOR, ENARSI), and Red Hat Linux.

• Complete all administrative teaching tasks within deadlines on student CRM (AmpEducator), such as classroom attendance, evaluation results, grade submissions, and other student records.

- Develop, design, and update the course curriculum to ensure optimum student learning, encourage classroom discussions, and constantly build student engagement.
- Stay abreast with the latest developments in information security and computer networks.
- Plan classroom instructions ahead of time to ensure the best student learning.

Professor, IT

Georgian@ILAC-Toronto, ON

December 2022 to December 2024

Ø Taking courses: Introduction to Object-Oriented Programming Using Java, Interface Design Using CSS, Linux System Administration, Linux Network Administration, Linux Automation, Scaling Networks, Windows Server and PowerShell, Windows Server Administration, Relational Database, Foundations of Scripting using Python, Document Automation Using Python, Introduction to Entrepreneurship.

Ø Complete all teaching administrative tasks on educational technologies (Black Board, Black Board Ultra, Pearson publisher, Cengage publisher, D2L, Zoom, Teams and ADP) such as classroom attendance, evaluation results, grade submissions and other student records within deadlines.

Ø Develop, design, and update the course curriculum to ensure optimum student learning, encourage classroom discussions and constantly build student engagement.

Ø Plan classroom instructions ahead of time to ensure best student learning.

Ø Be a mentor and coach to the students, guide them on how to be best prepared and navigate them through the course.

Instructor, Computer Programming and Cybersecurity Faculty

triOS College Business Technology Healthcare Inc.-Toronto, ON

April 2022 to December 2022

Ø Taking courses: Business Applications I, Java, Python, Hardware, OS, and Networks, Databases (MySQL using XAMPP and MySQL Workbench) and Systems Analysis and Design

Ø Complete all teaching administrative tasks on student CRM (Brightspace and XCAS) such as classroom attendance, evaluation results, grade submissions and other student records within deadlines.

Ø Develop, design, and update the course curriculum to ensure optimum student learning, encourage classroom discussions and constantly build student engagement.

Ø Plan classroom instructions ahead of time to ensure best student learning.

Ø Be a mentor and coach to the students, guide them on how to be best prepared and navigate them through the course.

Computer Instructor

Queen's College of Business, Technology & Public Safety-Mississauga, ON

January 2022 to September 2022

Ø Taking courses: Operating Systems, Mobile Communications, Database Management (PL/SQL)

Ø Complete all teaching administrative tasks on student CRM (Moodle) such as classroom attendance, evaluation results, grade submissions and other student records within deadlines.

Ø Develop, design, and update the course curriculum to ensure optimum student learning, encourage classroom discussions and constantly build student engagement.

Ø Plan classroom instructions ahead of time to ensure best student learning.

Ø Be a mentor and coach to the students, guide them on how to be best prepared and navigate them through the course.

Desktop Support Engineer

13132340 Canada Inc-Scarborough, ON

December 2021 to April 2022

Install server, switch, router, adva, and support Concert Technology, Lumen and Cisco.

Computer Skills Trainer

Dixon Hall Neighbourhood Services-Toronto, ON

November 2019 to January 2020

- i) Assist adult learners in gaining skills and experience using computer technology, including MS Word, e-mail, the Internet, as well as basic keyboarding skills.
- ii) Deliver course workshops materials as developed by the Program Instructor.
- iii) Provide one-to-one support to learners as required.
- iv) Represent Dixon Hall in a professional manner when working with learner.
- v) Complete all paperwork/documentation as required.

Database Specialist

Bengali Information and Employment Services (BIES)-Toronto, ON

October 2017 to December 2019

- Monitored the database of the company
- Defined IT strategy for the organization
- Implemented data import, export and transformation jobs between various systems like SQL Server, MS Access, Excel, and MySQL

Neighbourhood Link Support Services-Toronto, ON

October 2017 to December 2017

- Ø Provide one to one assistance to newcomer clients
- Ø Assist clients in accessing resources and operating office equipment
- Ø Assist clients in searching information on internet regarding Toronto landmarks
- Ø Maintain client confidentiality and adhere to Neighbourhood Link Support Services policies and procedures
- Ø Assist in facilitating workshops and perform community outreach

Assistant Programmer

Technical Education Board

August 2006 to April 2017

Managed large volume confidential and secure data (30 million records per year) related to educational programs through complete computerization system with Oracle database

- Generated documents (Registration Cards, Transcripts and Certificates) and processed information of 8,000 institutes with 400,000 students successfully publishing exams results always 15 days before deadline
- Selected as organization's representative to participate in large scale development project for country's first online admission system to be used by 10 school boards with 30,000+ institutes and 900,000 students
- Processed exam result data using Optical Mark Reader /OMR/ (3.2 million records per year), Intelligent Character Reading /ICR/ (10 million records per year) and Web data (10 million records per year)
- Designed interface for internal and external clients for data entry to support result processing
- Created 100+ types of complex and customized reports and prepared raw data, based on user requirements, for internal users and 40+ organizations
- Maintained 1 billion data (student information, result data) using Oracle database
- Managed online system for student admission, registration, form fill-up, admit card preparation, and result publishing

ICT Consultant

UNICEF

August 2011 to December 2011

Conducted follow-up visits to 10 different field locations to measure effectiveness of training provided during 1st project phase

- o Analyzed thoroughly participants' knowledge level and working environment to identify gaps and risks involved in enabling them to adopt and use MIS and other IT applications
- o Prepared feasible recommendations to minimize gap and mitigate risks identified
- o Prepared and implemented Action Plan based on recommendations
 - Identified current training needs for convergence districts for Basic and Advance IT course, Refresher course and Training of Trainers (Tot)
- o Prepared training curriculum and training materials based on the curriculum
- o Developed training plan in consultation with concerned UNICEF officials
 - Made administrative and logistic arrangement for the training
- o Identified 200+ potential trainers and conducted 25 group Tots
- o Prepared training location and setup computers by installing necessary software and applying appropriate settings
- o Supervised distribution and setup of computers in field locations taking part in computer configuration if needed

Consultant (WIS Monitoring Project)

UNICEF

March 2011 to May 2011

Developed software for WIS Monitoring Development to be used by 7,500 schools and monitored their data entry and system usage

- Prepared 100 types of consolidated reports for WIS monitoring software
- Included new 2,500 schools in database for data entry

Local Consultant

BTRC

November 2009 to December 2009

Developed software and more than 100 types of reports (statistical and geographical) for public and private telecommunication resources such as MW Transmission Back-Bone and Spur links, Optical Fiber Cable Transmission Back-Bone, Switching Centres, BTS (Tabular Form) and Customer Facilities of different types of mobile companies

Head of the Department in Computer Science & Engineering

Ideal Institute of Science & Technology-Dhaka

July 2004 to May 2006

- Teach the student of Diploma in Engineering (Computer, Electrical, Electronics, Civil, Telecommunication, and Textile)

Education

Diploma in Enterprise Web and Mobile Development

Trios College-Toronto, ON

October 2020 to August 2022

Diploma in Network Systems Engineer

CDI College-Scarborough, ON

December 2017 to April 2019

Master's Degree in Computer Science and Engineering

United International University-Dhaka

February 2008 to August 2011

Bachelor of Science in Computer Engineering

American International University Bangladesh

January 2000 to January 2004

Skills

- Database Backup/Restore
- System Administration
- Database Access Control
- Front End: Developer 6i, Visual Basic
- Vue.js (2 years)
- CSS
- React (1 year)
- Express.js (1 year)
- Bootstrap
- Toad
- DBMS security
- Mac
- PHP
- HTML
- Kotlin
- Git
- Active Directory
- Google Cloud Platform (3 years)
- Operating Systems
- IIS
- Software Development
- User Interface (UI)
- Reporting
- Interface design
- C#
- DHCP
- Cloud Computing
- SQL
- Linux
- DNS
- JavaScript

- Java
- GIS
- Macromedia Dream Weaver
- Python
- Microsoft Exchange
- Data warehouses /modeling
- Server Management
- SQL Developer
- Angular (2 years)
- LAN
- ASP.NET (1 year)
- REST
- Database Design
- TCP/IP
- WAN
- Application Integration
- VPN
- Application Development
- MS Project
- Database: SQL Server 2014, Oracle 10/11g, MySQL
- Microsoft Windows Server (10+ years)
- Web Services
- AWS (1 year)
- Node.js (1 year)
- APIs
- AWS
- Reporting: Crystal Report, Developer 6i
- ELT TECHNOLOGY SNAPSHOT:
- Azure (3 years)
- Computer Networking
- MS Office
- XML
- HTML5
- OS Windows
- PL/SQL
- DBA troubleshooting
- Scripting
- Network Administration
- Microsoft Windows Server

Languages

- English - Fluent
